# SANSKAR SONI

## SALESFORCE DEVELOPER / ADMINISTRATOR | Apex, Flow, Reports

India | +91 7340200946 | sanskar.soni369@gmail.com | LinkedIn | GitHub

**Last working day at CKP: 30 Oct 2026 | Available from 31 Oct 2026 | Open to remote roles**

### PROFESSIONAL SUMMARY

Software engineer with scenario-based Salesforce Trailhead experience in Apex development, declarative Flow automation, administration workflows and reporting. Earned **74 badges and 6 Superbadges**, including Apex Specialist. Complementary production experience building secure APIs, role-based permissions, data workflows and cloud-backed business applications.

### TECHNICAL SKILLS

**Salesforce:** Apex, Salesforce Flow, Lightning Experience, Reports & Dashboards, Flow Administration, Flow Optimization
**Platform Concepts:** Declarative automation, Flow elements / resources, access control, data validation, dashboard design, debugging
**Integration & Backend:** REST APIs, Python, Django REST Framework, Java, Spring Boot, JWT, OAuth 2.0, PostgreSQL, JSON
**Tools & Cloud:** Git, Postman, Azure App Service, Azure Functions, Service Bus, GitHub Actions, SQL

### SALESFORCE TRAILHEAD | HANDS-ON SUPERBADGES

**Trailhead:** 74 badges | 6 Superbadges | 82,625 points | Expeditioner rank
**Apex:** Apex Specialist | **Flow:** Flow Fundamentals; Flow Administration; Flow Optimization; Flow Elements and Resources Specialist
**Analytics:** Lightning Experience Reports and Dashboards Specialist

### PROFESSIONAL EXPERIENCE

**Full Stack Developer | CKP Software Technologies, Bengaluru | Nov 2025 - 30 Oct 2026**

- Built and supported production business applications, including a **multi-tenant survey SaaS** used by **100+ active users** across survey workflows, response management, reporting and administration.
- Developed **30+ secured REST APIs** using Django REST Framework and PostgreSQL, with server-side tenant isolation, role-based authorization, validation, OTP flows and audit-friendly request tracing.
- Designed reliable background operations using **Azure Functions and Service Bus**, introducing idempotency, retries, correlation IDs and dead-letter handling for exports and data processing.
- Improved panel handling from **15-20 to ~5,000 members** and optimized a 500-response CSV export from **2-3 minutes to ~10 seconds**.

**Full Stack Intern | CKP Software Technologies, Bengaluru | Jul 2025 - Oct 2025**

- Built role-based admin, faculty, student and parent workflows in a **College ERP**; designed database models and delivered **20+ APIs** using Spring Boot, Spring Security, PostgreSQL and React.

### SELECTED PROJECTS

**Gloria POS** | Spring Boot, PostgreSQL, React, Capacitor Android

- Built billing, inventory, room service and GST receipt workflows for hospitality operations, including permission-aware backend APIs, data validation and reporting / bill-history views.

### EDUCATION

**Master of Computer Applications (MCA)** | REVA University, Bengaluru | 2023 - 2025
**B.Sc. Information Technology** | Amity University, Jaipur | 2020 - 2023
